

ASSISTANT PROFESSOR IN DIGITAL ANALYTICS

Boston University Questrom School of Business

Job Description

The Questrom School of Business at Boston University anticipates an opening for a tenure-track Assistant Professor with an emphasis in analytics and trained in machine learning and A.I. techniques. Pending Provost budgetary approval, the anticipated start date for this faculty position is July 1, 2019.

The Questrom School of Business is building a strong group of faculty with expertise in all aspects of data science and analytics. Multiple hires represent a strategic focus for the School and are intended to fuel cross-departmental and cross-university research initiatives in analytics and data science, and support the Fall 2019 launch of our Master of Science in Business Analytics.

We seek outstanding candidates who would be comfortable in, stimulated by, and engage with the vibrant cross-disciplinary community that is data science. Prospective candidates must have demonstrated the ability to produce original and innovative scholarly work of the highest possible quality with impact in the top academic journals. Faculty will be expected to teach a variety of undergraduate and graduate courses in analytics and contribute to cross-disciplinary curriculum development activities; special consideration for those with experience in the classroom will be given. Candidates with ties to industry and access to datasets will have an advantage. The Questrom School of Business offers generous research and teaching support.

Required Credentials

We seek candidates with a PhD in Marketing, Information Systems, or Operations Management, whose research leverages their deep expertise in the methods of Machine Learning and Artificial Intelligence. Those with a PhD in Computer Science or Statistics with research that focuses on problems of significant interest to business are particularly encouraged to apply.

How to Apply

Interested candidates **should not apply through the Boston University HR website**. Candidates are encouraged to send application details to mktjobs@bu.edu and include the following:

1. "Assistant Professor - Digital Analytics" in the email subject line
2. A cover letter stating interest and qualification
3. A *curriculum vitae*
4. Three letters of recommendation
5. Research and teaching statements, including a point of view on teaching in analytics programs at the graduate and undergraduate level
6. Representative publications
7. A statement of where you saw this notice (e.g. the conference name, website, colleague, etc.)

Applications will be reviewed on a rolling basis until the position is filled. We will begin interviewing in early August 2018 for a July 1, 2019 start.

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability status, protected veteran status, or any other characteristic protected by law. We are a VEVRAA Federal Contractor.
