ASSISTANT PROFESSOR, BUSINESS ANALYTICS, Questrom School of Business

Job Description The Questrom School of Business at Boston University anticipates an opening for a tenure-track Assistant Professor trained in Machine Learning and Data Science with a Business Analytics focus. Pending Provost budgetary approval, the anticipated start date for this faculty position is July 1, 2020.

We seek outstanding candidates who would be comfortable in, stimulated by, and engage with the vibrant cross-disciplinary community of data science. Prospective candidates must have demonstrated the ability to produce high quality scholarly work at the top peer-reviewed outlets. Candidates with relevant research and publication experience in the industry are also encouraged to apply. Faculty will be expected to teach undergraduate and graduate courses in analytics and contribute to cross-disciplinary curriculum development activities.

The Questrom School of Business is building a strong group of faculty with expertise in all aspects of data science and business analytics. Key hires in this area in recent years represent a strategic focus for the school. The strengths of the Questrom School in analytics along with its ties to other key institutions focused on data science research at Boston University, such as the Data Science unit, Hariri Institute for Computing, present a unique and exciting opportunity to develop a cross-disciplinary research agenda at the intersection of machine learning and social science.

The Questrom School of Business believes that the cultural and social diversity of our faculty, staff, and students is vitally important to the distinction and excellence of our research and academic programs. To that, we are especially eager to have join our ranks a colleague who supports our institutional commitment to ensuring BU is inclusive, equitable, diverse, and a place where all constituents can thrive. The Questrom School of Business seeks to continue diversifying our faculty, student and staff ranks, recognizing that diversity of experience and thought deepens the intellectual endeavor.

The Questrom School of Business offers generous research and teaching support. The salary is competitive and commensurate with experience.

Required Skills Candidates with a PhD in core business-oriented disciplines whose research leverages their deep expertise in the methods of Machine Learning and Data Science; or with a PhD in Management with focus on Data Science, Computer Science or Statistics whose research focuses on problems of significant interest to business or social science research community, are particularly encouraged to apply. Although the candidate's research is expected to be interdisciplinary, the successful candidate upon hiring may have an appointment at a department in Questrom School of Business, such as Information Systems, Marketing, Markets, Public Policy and Law, or Operations Management, that is close to the candidates' area of research.

How to Apply Interested candidates should not apply through the Boston University HR website.

Candidates are encouraged to send application details to
https://academicjobsonline.org/ajo/jobs/14856 and include the following: 1. A cover letter stating
interest and qualification 2. A curriculum vitae 3. Three letters of recommendation 4. Research and
teaching statements 5. Representative publications 6. A statement of where you saw this notice
(e.g. the conference name, website, colleague, etc.)

Applications will be reviewed on a rolling basis as they arrive until the position is filled. We will
begin interviewing in early September for a July 1, 2020 start.

We are an equal opportunity employer and all qualified applicants will receive consideration for
employment without regard to race, color, religion, sex, sexual orientation, gender identity, national
origin, disability status, protected veteran status, or any other characteristic protected by law. We
are a VEVRAA Federal Contractor.

Job Location Boston, Massachusetts, United States

Position Type Full-Time/Regular
