

The Center for Science and Society at Columbia University invites applications for postdoctoral research scholar/scientist or associate research scholar/scientist positions to begin July 2020. Interdisciplinary postdoctoral positions are available in the Presidential Scholars in Society and Neuroscience program for researchers who have earned the doctorate, or its equivalent, in either (1) a humanities, arts, or social science discipline – such as psychology, psychiatry, public health, law, history, economics, literature, political science, philosophy, anthropology, sociology, journalism, music and the arts — and who have extensive acquaintance with, and critical understanding of, neuroscience research; OR (2) neuroscience or a related discipline in the natural sciences and who have extensive acquaintance with, and critical understanding of, another discipline in the arts, humanities, or social sciences. These Scholars will join an innovative program, Presidential Scholars in Society and Neuroscience, which includes up to nine postdoctoral positions and a large group of mentors and affiliated faculty from the arts, humanities, social sciences, and natural sciences.

Review of applications will begin on **December 2, 2019**, and will continue until the positions are filled. Candidates must hold a doctoral-level degree (PhD, DPhil, EdD, Jd, MD, etc.) by **July 1, 2020**, and must have received this degree after **July 1, 2015**.
