

**Ulsan National Institute of Science and Technology (UNIST)
Graduate School of Technology & Innovation Management
Faculty Position in Business Analytics**

The Graduate School of Technology & Innovation Management at UNIST is seeking applicants for a tenure track faculty position in Business Analytics which includes Marketing Analytics. The appointment may be at the assistant or associate professor level, depending on the qualification of the candidate. We are seeking highly qualified candidates who have an active research agenda and a commitment to effective teaching and service to the university. A hired applicant is expected to (a) publish in top-tier and highly respected journals, (b) contribute to the mentoring and development of undergraduate, Masters, and/or Ph.D. students and (c) teach graduate and undergraduate courses. The school offers generous research support and a competitive annual teaching load.

Faculty Position in Business Analytics

Candidates should have a Ph.D. in Marketing, Economics, Information Systems, Management Science, Statistics, Computer Science or other closely related disciplines. Candidates should demonstrate strong research and teaching interests in analytics and data-driven decision making.

Candidates should provide (i) a current C.V., (ii) a list of references, and (iii) an one page summary statement describing teaching and research plans, and (iv) copies of published papers (5 at most).

UNIST is a research-oriented university in South Korea, aiming to become one of world-leading universities in research and higher education. The university is offering competitive compensation package. Faculty members at UNIST receive the highest level of starting salaries among the national universities in Korea. Faculty members also receive generous start-up research grants and comprehensive benefits including on-campus modern housing, medical insurance, pension plan, and moving expenses.

Interested candidates should apply electronically via <https://invite.unist.ac.kr/infor/ba/graduate-school-of-technology-innovation-management> (Note that “information system” should be selected as the major during the application process). Applications will be accepted until the positions are filled.

Please visit the website at <http://mot.unist.ac.kr/en> for more information about the school. Please email Prof. Yeolib Kim (Business Analytics) at yeolib.kim@unist.ac.kr if you have any questions.
